

*It's Not Too Late: Donate Today!*

Please support our 'Take Action, Create Potential' research campaign today on #GivingTuesday to impact the lives of those living with autism and epilepsy as a result of a change in the SCN2A gene.

To date we have raised **\$31,424** which is approximately 62% of our goal of \$50,000 by 2018 year-end.

All donations made to the FamilieSCN2A Foundation on #GivingTuesday (today) **will be matched by a generous donor up to \$10,000!**

Make a gift through [Facebook](#) or [donate directly to us](#) to double the impact!

**Not on Facebook?** No problem!

Double your impact by donating through [www.scn2a.org](http://www.scn2a.org)

#GivingTuesday.

Thank you for *taking action* and *creating potential* for a CURE for SCN2A!
